

Healthcare Logistics Expertise Under a New Name:

Vision Logistics to Become Life Couriers

(Munich, 16 September 2024) – Leading UK healthcare logistics provider Vision Logistics has announced that it will be rebranded under the name Life Couriers. The company, founded in 2000 with its head office in Portsmouth (UK), specializes in logistics solutions for the healthcare sector, particularly with its award-winning Direct-to-Patient Delivery service. Vision Logistics has been part of the Life Couriers group since 2022. The rebranding marks the next step in the development of the global Life Couriers brand.

With the acquisition of Vision Logistics, Life Couriers added another market leader to its extensive portfolio of life science and healthcare logistics companies, while also expanding its footprint to the UK, the tenth European country in its network. The integration of Vision Logistics into the Life Couriers brand marks an important step in further strengthening Life Couriers' global capabilities.

Peter Smith, Managing Director of Vision Logistics, states: "Vision Logistics and Life Couriers have long shared a mission to provide the best support to patients worldwide. Under the unified Life Couriers brand, we can further consolidate our expertise and knowledge. I strongly believe that this presents a fantastic opportunity for our team in the UK, both in the short-term and also longer-term."

The current offerings and services at Vision Logistics will continue under the new name and all employees will be retained. In addition, the integration into the global Life Couriers network has already brought new service opportunities to the UK, such as the introduction of radiopharmaceutical deliveries for groundbreaking cancer treatment.

Through the acquisition of Vision Logistics, the Life Couriers team in Europe grew by over 20 percent, increasing the number of employees worldwide to over 750. Peter Smith will continue to oversee the UK operation of the Life Couriers network as Senior Vice President Life Couriers UK.

Stefan Glebke, CEO of Life Couriers, comments: "I am delighted to officially welcome Vision Logistics as part of the Life Couriers brand family and to sail forward together under one flag. We are proud to welcome this strong team and look forward to our shared future."
