As the worldwide market leader for radiopharma and stem cell logistics, we've taken this experience with the most time-critical shipments in the world to expand our services beyond the labs – directly to those in need, anywhere in the world.

We required an urgent delivery of automotive spare parts to Chicago. The shipment was **promptly picked up** at 07.00 AM in Vienna (VIE) and **safely delivered** at 03.20 PM in Chicago (ORD). The VIE-ORD flight route ensured that the critical parts reached their destination quickly and reliably. Life Couriers has once again demonstrated that they can **provide excellent logistics** solutions even under time pressure.
