Logistics **for Life**

At Life Couriers, we confront the greatest challenges in healthcare and life science logistics, delivering lifesaving therapies, critical diagnostics and breakthrough clinical trials.

As the worldwide market leader for Stem Cell and Radiopharma logistics, we've taken this experience with the most timecritical shipments in the world to expand our services to biopharmaceuticals, cell and gene therapies, lab specimens, clinical trials, organ transplant, medical devices and more.

Freight operational area

10 reasons to choose us as your Pharma Freight partner

Documentation and tracking

Detailed documentation and 24/7/365 real-time tracking.

Continuous monitoring

Including temperature, door status, geo-fencing and fuel status.

GDP-compliant

Fully compliant with Good Distribution Practice (GDP), we meet strict EU regulations.

Quality standards

State-of-the-art equipment, clear calibration documents, ATP certificates and cleaning protocols.

Temperature control

Cold chain (-20°C), chilled (+2°C to +8°C), and ambient (+15°C to +25°C).

Regulatory frameworks

Strictest compliance with customs regulations for pharmaceutical transports.

Global network, local expertise

Worldwide network of office and depot locations, Life Couriers is also represented at all major borders.

Security

End-to-end security during transportation prevents theft, loss or unauthorized access.

Trained drivers

Our drivers are qualified to transport pharmaceutical cargo through in-depth training and ongoing education.

Bespoke service

Tailored solutions created to your exacting requirements.
