

Stem Cell **Onboard**

We are the worldwide leader in organizing accompanied transport for Stem Cell transplants.

The global No. 1 in **Stem Cell deliveries**

Ensuring safe Stem Cell deliveries. With a 100 % success rate.

For over 20 years, Life Couriers has been training couriers in worldwide Stem Cell transportation and organizing accompanied transports of Stem Cell donations for leukemia patients.

With over 50,000 successfully completed transplant deliveries across the world, our experienced team and specialist expertise is available to all parties involved in Stem Cell donation.

Smooth and fast delivery of the transplant. Worldwide.

In line with our commitment to this life-saving mission, the Life Couriers team is available 24/7/365 for planning, organization, and emergencies during the journey, both for the Stem Cell courier and the affected Stem Cell organizations.

By leveraging our extensive experience with all global travel connections, we enable a Stem Cell courier to deliver worldwide within 24 hours in almost all cases.

Logistics **for Life**

We deliver hope.

At Life Couriers, we confront the greatest challenges in life science logistics, delivering lifesaving therapies, critical diagnostics and breakthrough clinical trials. Wherever logistics can make the biggest difference to a patient's life, you'll find us first.

As the worldwide market leader for Stem Cell and Radiopharma logistics, we've taken this experience with the most time-critical shipments in the world to expand our services to biopharmaceuticals, cell and gene therapies, lab specimens, clinical trials, organ transplant, medical devices and more.

24/7/365
service

100 %

deliveries

6 reasons to choose us as your Stem Cell Onboard partner

Constant communication. Full visibility.

The Life Couriers team is available 24/7/365. Track the status of the transport online at any time.

Full documentation including temperature records

Detailed documentation provided to the courier and the relevant Stem Cell organizations.

Superior temperature control

We provide couriers with the most advanced equipment for monitoring Stem Cell temperature throughout transportation.

Continuous and comprehensive training

All Stem Cell couriers are kept up to date on the latest requirements of national and international standards.

Professional process and travel management

Life Couriers consolidates all transport-relevant information and provides it to the institutions involved in the transplantation.

Contingency plans

There is no second chance for the patient. Therefore, we always have plans in place to manage unpredictable incidents that could cause critical delays and risk the integrity of the product.
