

Healthcare Logistics Group with new acquisition:**Life Couriers subsidiary Associated Couriers acquires Vision Logistics**

(Kelsterbach, April 29, 2022) Associated Couriers Inc., leading US supplier for radiopharmaceutical and healthcare logistics, acquires Vision Logistics, an outstanding UK supplier for healthcare shipments, thus expanding its regional footprint as well as its area of expertise.

Vision Logistics, a unique provider of 3rd party logistics services focused on the delivery of healthcare products to patients at home or in care, was founded in 2000 and is headquartered in Portsmouth, England, UK. Vision Logistics operates nine logistic depots across the UK, providing over 290,000 square feet of storage capacity, to live up to its full-service portfolio ranging from storage to fulfillment and transport. Being the preferred logistical partner to the product leader in the UK incontinence market for more than a decade, Vision Logistics can be regarded the UK leader in incontinence logistics. Vision Logistics is exclusively operating in the UK, engages a headcount of more than 120 employees and generates a turnover of more than 8 million GBP per year.

Graeme Wilson, Managing Director of Vision Logistics: “We are extremely happy to join Associated Couriers and Life Couriers, giving us the power to drive the ongoing growth of our business and helping us in the further development of the company and its range of services. We are sure to benefit from the global life science competencies within Life Couriers, as a base for our local portfolio extension, but also happily contribute our healthcare knowledge to see it flourish in other European or the American markets.”

Matt Silverberg, CEO of Associated Couriers Inc.: “With the acquisition of Vision Logistics, we are adding another great market leader in a very promising healthcare logistics segment to our existing leadership portfolio, and we are adding the UK market as the 6th European country to the Life Couriers footprint. And beyond: Over the past 12 months, we have seen an increasing global cross-fertilization of sectoral knowledge and competencies within the Life Couriers universe - and now Vision Logistics will also contribute to boost that development. We are very happy to have them in the family.”
